

Community Relations Grant Provides Accounting Student Scholarships

AmerInst Insurance Group, Ltd. has enhanced its community relations efforts by providing a \$5000 grant to the North Dakota CPA Society Foundation. The AmerInst Award affords two accounting student scholarships – two per year, over a five year period. The funds help defray costs of the exam to become a Certified Public Accountant (CPA).

Selection is based on individual achievement and enrollment at a state or border city college. Eligible students must plan to take the CPA exam within a year of graduation. The North Dakota CPA Society is placing educational emphasis on effort. Students are not necessarily among the top tier graduates in their program.

Since 2005, AmerInst has honored CPA State Societies for innovation and extraordinary work in actively giving back to their communities. Through the years, grants have been provided to winning societies in Montana, Washington, Michigan, Kentucky, Ohio and New Hampshire.
